

Don't apply to that job!

AI needs it more than you do

AI is already replacing writers, designers, and administrative workers. New jobs are promised, but without serious investment, most workers won't transition (1, 2).

(1) Gmyrek, P., Berg, J., & Bescond, D. (2023). Generative AI and jobs: A global analysis of potential effects on job quantity and quality (No. 96; Working Papers). International Labour Organization.

(2) Berg, J. (2024, October 9). Minimizing the negative effects of AI-induced technological unemployment. International Labour Organization.
